

Semi-automatic pool ball launcher

Your billiard secret weapon

SEE BACK FOR OPERATING INSTRUCTIONS

WARNING

PLEASE READ ALL WARNINGS AND INSTRUCTIONS BEFORE ATTEMPTING TO USE THIS PRODUCT.

- **Individual results may vary.** There are many variables that contribute to the final resting spot of each individual object ball. Proper technique and good conditions will generate more consistent and accurate results.

CAUTION

- **WATCH OUT FOR MOVING BALLS!** Avoid or prevent contact with the device to maintain the ball placement consistency and prevent damage to equipment.
- **Handle with care.** Do not expose to moisture or extreme temperatures.
- Store the ramp against the included stiffening board to keep it from warping. If needed, the ramp can be gently bent back into position.

NOTE: The foam ball included is used to preserve the integrity of the Rock-it® arm.

Efficiently set up and organize pool balls while practicing various shots and drills. Easily place and replace object balls in the same relative location with just a simple downward motion of your pool cue.

- Set up on either side of the pool table, and launch balls from short or long range.
- Launch ramp has a maximum capacity of eleven balls, and can be positioned and repositioned to perform almost any shot desired.
- Golf tee acts to stop the remaining balls providing the ability to launch one ball at a time.

OPERATING INSTRUCTIONS

1. **PRESS** the Rock-it® arm ↓ downward swiftly and softly.
2. **HOLD** the Rock-it® arm down until the ball is launched on the pool table surface.
3. Gently **RELEASE** the Rock-it® arm being careful not to disturb the position of the launch ramp.

TIPS

- Use both hands and operate the higher part of the Rock-it® arm to gain more control.
- Avoid ANY movement of the launch ramp to maintain the ball placement consistency.
- During step 2. use one hand to catch and replace balls on the table.
